

Namaste,

I'm [Divyesh Bhandari](#). I'm a multi-disciplinary designer who loves diving into the world of creativity, problem-solving, and visual language. With a solid background in design and a strong passion for technology, I bring a unique set of skills in the house.

I find advertising very fascinating. I'm captivated by the endless possibilities and creative solutions we can create to overcome challenges.

My journey has been quite unconventional. While my educational pursuit began with a [Bachelor's degree in Computer Application](#) from South Gujarat University, my genuine passion for design led me to the [AA-Academy Specialist Program](#) at Arena Multimedia Mumbai. It was during this time that I refined my craft and discovered my true calling in the field of design.

The initial stepping stone of my career was at [ZWA! Design](#), a remarkable boutique design studio in Mumbai, where I spent nearly four transformative years. This experience played a pivotal role in shaping my skills and igniting my creative spirit. Seeking fresh challenges, I transitioned to a corporate environment, joining [General Mills](#), where I specialized in crafting responsive web experiences.

But my adventures didn't stop there. I took a leap and journeyed from Mumbai to Dubai, where I had the privilege of consulting for [VisitDubai.com](#) dedicating 6 months to their product module. This experience not only deepened my appreciation for Dubai but also opened doors to a new chapter in my career at [ImpactProximity](#). As I continued to carve my path, I eventually found myself at [ImpactBBDO](#), navigating uncharted waters alongside accomplished Copywriters, CDs, and ECDs, collaborating on campaigns, pitches, shoots, brainstorming and pouring my heart into every project to deliver exceptional results.

Feel free to reach out to me directly on my mobile at [+971 569240602](#) or drop me an email at [namastediv@gmail.com](#). I am excited to connect and explore new creative opportunities together.
